

# Zap it! Instructions

## Zap It!

Write down all sight words on popsicle sticks. In the jar there are 2 zap it! sticks. You could also play this game with uppercase and lowercase letters.

This game can be played in partners or a small group.

Player 1 pulls out a stick and names the sight word, (or if playing with uppercase/lowercase letter, then they must name the sound or has to generate a word that begins with that letter...whatever skill you want your children to learn.) If they get it correct they keep the stick. Then it is player 2s turn. If the player pulls out Zap It! they have to return all their sticks or it could be modified to only return 2 sticks.
